

INFORMATION FOR AUTHORS

IEEE Transactions on System, Man, and Cybernetics Part C is published bimonthly in January, March, May, July, September and November. Each paper submitted is subjected to a thorough review procedure, and the publication decision is based on the comments and recommendations of the reviewers. Review management is generally under the direction of an associate editor. Often, reviews take three to six months to obtain, occasionally longer. An additional several months is required for the publication process.

A. Process for Submission of a Technical Paper

1. All papers should be submitted electronically in Portable Document Format (PDF) or PostScript. The paper should print correctly on 8.5 by 11 inch paper. For UNIX and Windows systems there are postscript to PDF converters, notably ps2pdf which is a part of Ghostscript. A text version of your abstract is required.
2. Please utilize our manuscript submission system at: <http://mc.manuscriptcentral.com/smcc-ieee>
The site has instructions and/or help buttons on each page.
3. We encourage the submission of attachments with the paper. An attachment (video, animations, applets, code, data, etc.) should be referenced in the text of the paper and enhance the presentation. We currently accept avi files (PowerPoint animations), MPEG video files, Java applets, code with specific compilation instructions and execution instructions and machine specific information, and data sets with a description of the data format. More information on Multimedia Materials can be found at: <http://www.ieee.org/web/publications/authors/transjnl/index.html>
4. If the manuscript has been presented, published, or submitted for publication elsewhere, please inform the Editor. Our primary objective is to publish technical material not otherwise available, but we do occasionally publish papers of unusual merit that have appeared or will appear elsewhere.

B. Style for Manuscript

1. Use double-space format and 11 pt type or larger fonts. Please have your text fit in 8.5x11 in. (21.6x27.9 cm) sheets. The manuscripts of IEEE Transaction format (two-columns) are also acceptable.
2. **Regular papers** are normally about **10 Transactions pages** in length, or shorter. **Technical correspondences** are generally no more than **6 Transactions pages** in length. The maximum number of *Transactions* pages for a **review paper is 16**. Please see the discussion on excess page charges for charges that are imposed when manuscripts exceed the maximum number of pages.
3. Since the TRANSACTIONS publishes only in English, contributors for whom English is not a native language should consult a colleague who is familiar with the English language, prior to submitting the paper, for the purpose of editing the original manuscript.
4. Provide an informative 100 to 250 word abstract at the head of the manuscript; provide an abstract of not more than 100 words for Correspondences.
5. Provide a separate double-spaced sheet listing all footnotes, beginning with "Manuscript received..." (date to be filled in by Editor) and affiliation of the author(s), and continuing with numeric citation. Acknowledgement of financial support is placed at the end of the first footnote.
6. References should appear in a separate section at the end of the paper, double-spaced with items referred to by numerals in square brackets. References must be complete and in IEEE style: *Style for papers*: Author, first initials followed by last name, title in quotations, periodical, volume, page numbers, month, year. *Style for books*: Author, title. Location: publisher, year, chapter, and page numbers (if desired). See any issue of the Transactions for examples.
7. Provide a separate sheet listing all figure captions.
8. Authors of accepted papers will be asked to supply a head and shoulders photograph of themselves and a technical biography. The biography should be in the form used in IEEE TRANSACTIONS, consisting of three paragraphs of information: name, where and when born, degrees earned, field(s) of study, school, city, state; chief employment dates, organizations, positions held, type of work, responsibilities, present position; and professional society membership, offices, awards.
9. Accepted papers will rapidly appear on the Web in the IEEE XPLORE system approximately three weeks after corrected page proofs are received from an author. This will typically be before the paper appears in the print version of the journal. Hence, papers will be disseminated to the research community faster utilizing electronic submission.
10. "Information for IEEE Authors" and other information may be obtained at the WWW site: <http://www.ieee.org/web/publications/authors/index.htm>

C. Style for Illustrations

1. Originals for illustrations (including tables) should be sharp, noise-free, and of good contrast as they will be photographed or electronically scanned. We regret that we cannot provide drafting or art service.
2. On graphs, show only the coordinate axes, or at most the major grid lines to avoid a dense hard-to-read result.
3. All lettering should be large enough to permit legible reduction of the figure to column width, sometimes as much as 4 to 1. There should only be one illustration per page and only illustrations should be included in the set of illustrations. **Please be very sure that your lettering is sufficiently large such that it will be readable after photo-reduction.**
4. If an illustration is to be reproduced in color the author is responsible for the incremental cost of printing in color.

D. Voluntary Page and Excess Page Charges

After a manuscript has been accepted for publication, the author's company or institution will be requested to pay a voluntary charge of \$110 per printed page to cover part of the cost of publication. These page charges, like those for journals of other professional societies, are not obligatory nor are their payment a prerequisite for publication. The author will receive 100 free reprints without covers if this charge is honored. A **mandatory overlength page charge of \$175** is required for each page in excess of 10 pages for a regular paper, 6 pages for technical correspondences and 16 pages for a review paper. Author are encouraged to estimate the length of their manuscripts prior to submission. Detailed instructions on payment of these charges will accompany the page proof.

E. Electronic Publishing

The final version of the manuscript must comply with IEEE Periodicals requirements for text and graphics processing. The author must submit final files electronically through the manuscript submission system at <http://mc.manuscriptcentral.com/smcc-ieee>. The required files include source file(s) (e.g., Latex or Microsoft Word), figures, and a pdf file of the entire manuscript. Figures can also be embedded in the source file of the manuscript. Acceptable formats for figures include Word, eps, ps, tiff, ppt, and Excel.

Further details are contained in the information for authors accompanying the final acceptance letters.

For important information on preparing final manuscript materials visit the Tools for Authors web site at: <http://www.ieee.org/web/publications/authors/transjnl/index.html/>

F. Copyright

It is the policy of the IEEE to own the copyright to the technical contributions it publishes on behalf of the interests of the IEEE, its authors, and their employers, and to facilitate the appropriate reuse of this material by others. To comply with the U.S. Copyright law, authors are required to sign an IEEE Copyright Form before publication. This form returns to authors and their employers full rights to reuse their material for their own purposes. The Copyright Form may be obtained from the following web address: <http://www.ieee.org/web/publications/rights/copyrightmain.html> Authors must submit a completed copy of this form electronically via the manuscripts submission system with their accepted manuscript related files.

The **Editor-in-Chief** of the IEEE Transactions on Systems Man and Cybernetics Part C is:

Dr. VLADIMIR MARIK
